Subject: River view property for migrants

[Warning: External email]

Good afternoon,

The ongoing question of what to do with the influx of migrants has brought backlash in all of neighborhoods in Chicago. There seems to be only quick fix temporary solutions and no long term plans in place. From what is being reported, migrant tents have yet to be constructed with fall and winter nipping at our heels.

Working in hotels, I understand that the owners of the hotel see an opportunity to have a long term contract with the city of Chicago, have a nice paycheck with very little overhead. But what about the residents and businesses in the surrounding area? State street is already a hotbed of illegal activities and the scene of at least 3-4 shootings in the last few years. When I walk around town, I can point out where a handful of shootings occurred. McDonalds shooting near Chicago and State, Red Line has had multiple near Grand and State, outside of House of Blues there was a shooting, also one on the bridge.

There is already a revolving door of crime and criminals in our city. No bail reform and a depleted exhausted police department only adds to the crisis. There are reports and video of gangs that made there way with the migrants, prostitution and drug activity. We also live near the Inn of Chicago and have seen numerous illegal activities around St Clair street.

Chicago has a crisis on hand, and they have yet to deal with the gun violence that has plagued this city for many years. Last weekend, a mass shooting in Chicago occurred and there was very little coverage. It's a sad state of affairs when the problems compile and instant satisfaction solutions are thought to be the best answer. The migrant situation will be a challenge with winter among us, and our elected officials don't seem to have a plan.

"Vision without action is merely a dream. Action without vision just passes in time. Vision with action can change the world." Joel Arthur Baker

Mayor Brandon Johnson seems to be stuck somewhere in between the first and second sentences.

Dear Brandon Johnson, Do you know the history of Marina City? It started as a nice middle class residence to make downtown more liveable, with restaurant, movie theatre and bowling alley. It began attracting a rough crowd of teens and 20s, then the gangs grew and past customers stopped coming. It has turned around with a lot of effort though Hard Rock, the Red Line and drug city McDonalds still generate real problems for the police. I and many friends voted for you but if Inn of Chicago doesn't stop you from continuing to house illegal migrants who can't get jobs and have nothing to do all day but illegal activities, none of us will vote for you again. And even more businesses will leave downtown, the city's economic engine.

November 7, 2023

Dear Mayor Johnson(letterforthemayor@cityofchicago.org)

The South Deering Manor Community Association (SDMCA) represents homeowners and residents in Jeffrey Manor/South Deering. We support our local elected officials as well as the officers of the Chicago Police Department 004th District.

We are writing to express our concern regarding the safety of our residents, public servants and those currently sheltering at the 004th District Police Station located at 2255 E. 103rd St.
Specifically, we are concerned about the dirty and unsanitary conditions that local officers endure during their work hours. It is apparent that there are OSHA violations as it pertains to air quality being instituted with this action. There are also occupancy codes not followed. local residents are being exposed while conducting various levels of business in the 004th building, which further raises the concern as to what they may be transmitting out to the public after they leave the building. Ensuring a safe and sanitary work environment for our officers is crucial to maintaining public safety. Additionally, the migrants themselves are interacting with one another under these conditions. To what extent is maintenance able to keep up with the quality of care for this issue?

These unsanitary conditions have expanded beyond the walls of the police station with tents being put up in the yard and parking lots. Our residents have noticed trash spewed across their front and back yards and alleys. A few of our long-standing residents wrote a flyer and upon distribution, they noticed some of the migrants cleaning up. Where are the organizations that support the migrants as they have a responsibility to assist with adhering to community standards while the city extends this “hospitality”? There have been reports that migrants, said to be suspicious people, rummaging through residents' garbage bins on private property.

The act of ” humanitarianism” has now expanded to a public safety issue for those residents whose vested interest is their quality of life. They have reported an uptick in suspicious activity since the migrants have begun sheltering at the police station; panhandling on the the corners of 95th & Jeffrey, particularly in front of McDonald’s causing a traffic hazard; as homeowners have walked to their cars along Van Vlissingen, they witnessed an unknown person whose demographics meets that of the migrants running through their side yard, another resident found a damaged army duffle bag hanging across her fence with trash emptied on her back lawn, reports of couples having sex in the porta potties, medicinal needles taken from garbage cans and left on park grounds at Trumbull park.

South Deering residents were not consulted about this decision to set up camp for the migrants on 103rd street. In any action with a commercial proprietor, there would be the need to contact the residents within 250 feet with public notice. From our perspective, this is also a violation of zoning regulations.

At what point will the laws and regulations apply to this situation, while those residents must take on the responsibility to communicate etiquette, expand their range of security devices at their expense, and feel safe in their own homes? As if the COVID-19 pandemic was not enough trauma, the city is not stepping up to support AND add protection for its own residents!
We are committed to supporting our residents, improving their quality of life, and advocating for their safety. We aim to collaborate with local officials, law enforcement, and the broader community to find effective solutions and address these issues. Together, we can create a stronger, safer, and more harmonious South Deering and City of Chicago.

Subject: Migrant Shelters near Magnificent Mile

[Warning: External email]

I am completely dumbfounded by the decisions to set up migrant shelters in the Gold Coast/Mag Mile areas. I have seen dozens of migrants idling in front of Inn of Chicago or panhandling nearby. I have to go in that neighborhood for appointments at Northwestern Memorial Hospital and take steps to avoid that particular street and certainly avoid it at night. Now I hear there is going to be a second shelter in an even pricier neighborhood nearby. This is insulting to the residents who have paid a fortune to live in this area. They can forget about selling their condos at any price.

Further, there is a negative business impact on area businesses as no one will want ot go in those areas to par=tronize restaurants, shops, taverns and so on. Finally, none of these migrants will have enough money to purchase anything from any of the businesses around there except maybe 7-11 or McDonald's. There aren't even any coin laundries around for miles.

Surely there are better locations than these in the city in a neighborhood where the impact will be lower. What were you thinking?

Regards,

Homeowners in south and southwest suburbs will see 'record-high' spike in tax bills, Treasurer's Office study shows

By Michael McDevitt

Cook County Treasurer Maria Pappas attends 2024 budget hearings in October 2023. [Livestream]

Property tax bills for Tax Year 2023 for homeowners in the south and southwest suburbs of Cook County jumped significantly while businesses in the area got big breaks, an analysis by the county treasurer's office released this morning shows.

That stark disparity is driven by a mix of higher home values, the elimination of a COVID-era assessment reduction and businesses successfully appealing their valuations before the Board of Review, according to the treasurer's office.

Happy Saturday! *The TWN stories below span our Oct. 27 - Nov. 2 coverage.Thanks for reading!*

CONGRESS

- **Sixteen attorneys general** are asking congressional leaders to take action to prevent**price gouging** as popular opinion polls show inflation is becoming a major concern of consumers. (Oct. 31)
- **Former New York Gov. Andrew Cuomo** is facing possible criminal charges for an alleged cover-up of**COVID-19 pandemic mistakes** following a recommendation from a congressional subcommittee. (Nov. 1)

COURTS

- **Steve Bannon** resumed his **"War Room"** conservative podcast hours after being released from prison, telling his roughly 60,000 listeners that "everything we've fought for for years is coming to fruition." (Oct. 29)
- The **U.S. Supreme Court** ruled that **Virginia** can resume purging its registered voter list to prevent people who are not American citizens from voting. (Oct. 30)

OPINION

- **Gary Winslett, Ph.D., associate professor at Middlebury College**, writes on**Vice President Kamala Harris'** platform for leaning into supply-side progressivism to bring down costs through abundance, ultimately embracing a**"Yes in My Backyard"** housing policy — not to mention energy, health care and child care. (Oct. 28)
- **Jon England, a policy analyst at the Libertas Institute**, writes on four-year colleges failing to prepare**Gen Z** for the job market, leaving a generation crippled by debt, disappointment and dead-end jobs. The alternative: trade schools, apprenticeships, gap years and entrepreneurship. (Oct. 29)
- **Cary Simmons, director of community strategies at Trust for Public Land, and Corey K. Wilson, J.D., superintendent of parks at BREC, East Baton Rouge**, write on political division and the loneliness epidemic being solved with community engagement around parks and building civic infrastructure across the country. (Oct. 31)
- **Ariel Magaña Linares, an attorney at the Center for Immigrant & Refugee Advancement**, writes on**anti-immigrant narratives** being nothing new to the United States, but points to his hometown of Fremont, Nebraska, as a model for hope in overcoming such division and discrimination. (Oct. 31)
- **Zeb Smathers, mayor of Canton, North Carolina**, writes on driving through his town and finding Democrats and Republicans alike digging through the post-Helene rubble to find and raise American flags in a show of solidarity and **patriotism** as his community heals. (Nov. 1)
- **Brad Carson, president of Americans for Responsible Innovation**, writes on the fact that 31 states have no election laws on the books regulating how**artificial intelligence** can be used in political content or what transparency is required to warn voters that content is AI-generated. (Nov. 1)

A message from Electronic Payments Coalition:

- While the presidential race is, understandably, sucking up much of the oxygen this political season, voters in 11 states are also poised to choose **new governors** who will chart the course of their respective states over the next four years. (Oct. 28)
- **Senate** Republicans demand a response from the **Department of Homeland Security** about how a suspected ISIS terrorist was able to enter the United States as part of a plot for an Election Day attack. (Oct. 28)
- The fates of 34**Senate** seats will be decided next week, but with Democrats holding just a razor thin margin in the chamber, the outcome of a few truly competitive races will decide which party is in charge when the new**Congress** convenes in January. (Oct. 29)
- **Vice President Kamala Harris** delivered the closing argument of her campaign, drawing an enthusiastic crowd of an estimated 70,000+ people to the same spot where **former President Donald Trump** held his Jan. 6, 2021, rally before his supporters laid siege to the U.S. Capitol. (Oct. 30)
- **Former President Donald Trump**, whose inflammatory comments so often go unpunished, is facing a firestorm of criticism after he described**former Rep. Liz Cheney** as having guns "trained on her face" during a rant on his longtime critic's foreign policy positions. (Nov. 1)
- More than half of registered voters say they've either already voted or plan to do so before**Election Day**, according to the latest **Gallup** poll assessing the 2024 election. (Nov. 1)
- **Colorado's** voting machine system is once again secure after an online**leak of partial passwords** temporarily appeared to leave it compromised, the secretary of state's office announced. (Nov. 1)

CHICAGO — Two boys, including a 13-year-old, are charged with attempted murder for stabbing and critically injuring a man during a group attack outside a McDonald's restaurant on November 14.

Chicago police said an 18-year-old man was walking in the first block of North Western Avenue when a group of males attacked him around 9:23 p.m. At least one person in the group pulled out a sharp object and repeatedly stabbed the victim, leaving him in critical condition, according to CPD.

No arrests were immediately made. Now, police say a fugitive task force arrested the 16-year-old and the 13-year-old to face charges in the case. Authorities took both boys into custody in the 4100 block of West Wilcox on Tuesday.

Both of them face charges of attempted first-degree murder and aggravated battery with a deadly weapon. No other information is available about the boys because they are juveniles, and their cases are shielded from public review.

Hi Tom Homan,

I am a resident of Chicago, IL and have been for over 10 years. You'd think leadership would care about the safety and well-being of ALL Chicagoans but THAT is not the case. Brandon Johnson is a PEDOPHILE. If you look into the money laundering through CPS you will see. If you look at how long Brandon has been taking money from C40Cities (Bill Gates, a satanists, NGO), you will see. If you just watch how Brandon acts and what he does, you will see.

Leadership comes from the top. That is why Chicago is rotting from the inside out. Brandon Johnson is a *fucking* moron, a demonic creature and has no purpose in America let alone in a leadership position. ***In my humble opinion since Brandon loves Africa SO much maybe he can SELF deport and encourage all the illegal criminal migrants he's harboring in Chicago to do the same...you know lead BY example!***
